

FRIDAY ROUND UP

10th May 2024

I hope this message finds you well! I wanted to take a moment to update you on this and next week's forecast and remind you of some important steps to ensure our children stay safe and healthy while enjoying the warm weather.

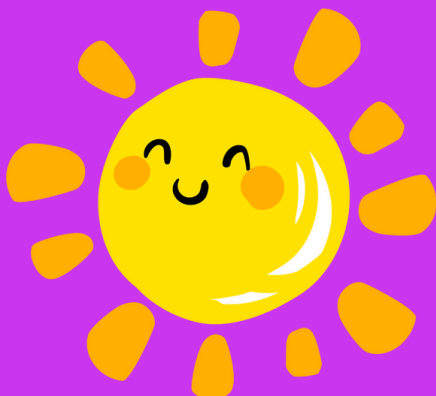

With temperatures rising steadily, it looks like we're in for some more beautiful sunshine next week. While we're all thrilled to see the arrival of warmer days, it's crucial that we take precautions to protect our children from the sun's rays.

Here are a few reminders:

1. Hats and Water: Please ensure your child comes to school equipped with a hat and a refillable water bottle. With the warmer temperatures, it's important for them to stay hydrated throughout the day.
2. Sunscreen: Please apply sunscreen to your children before they come to school.

Wishing you all a wonderful weekend filled with sunshine and smiles!

Mr Farrell

Walk to School Week - 20th - 24th May

Is your child ready to discover The Magic of Walking? This year's walk to school challenge encourages children to travel actively to school every day of the week. Walking or wheeling to school benefits individuals, communities and the planet! If you are unable to walk all the way, try parking further away and walking part of the way. There are car parks at The Chinese Bridge or Judith's field for example.

Year 2

Year 2 enjoyed a visit from Mrs Berry and her chicks, Captain Jack Sparrow and Eagle, as part of their science lesson on the life cycle of a chicken.

They got to handle the chicks and ask lots of questions about how they change and what they need to survive. It was a great way to bring the learning to life and all the class enjoyed their visit.

Reception Class

As part of their Creep, Wriggle and Crawl topic, Class R have been taking care of tadpoles. We have learnt the life cycle of a frog and are keeping a weekly 'tadpole diary'. So far, we have discovered that they like a water habitat with rocks and plants to hide under and that their favourite food is cucumber. We have observed them grow eyes, get bigger and turn brown. Soon they will get their back legs! We have been so excited to keep them that we decided to dig our own wildlife pond in the Outdoor Learning area for when they have changed into frogs! If anybody would like to donate any crockery stones or pond plants, they would be warmly received.

SEND HINTS AND TIPS FROM MISS TAVENDER

Meet the Team - Inclusion Support Assistants.

Our Inclusion Support Assistants work with a number of children within the school to provide the best possible outcomes for them. The team works hard to make all their time at St Anne's as inclusive as possible.
