

# FRIDAY ROUND UP

9th February 2024

## CHILDREN'S MENTAL HEALTH AWARENESS WEEK

We're proud to be taking part in @Place2Be's #ChildrensMentalHealthWeek this week (5-11th February 2024). Children at St Anne's attended an assembly on Monday to learn about this years theme of **'My Voice Matters'**.

**'My Voice Matters'** is about empowering children by giving them the tools they need to express themselves. When we feel empowered it has a positive impact on our wellbeing. Children who feel as though their voices are heard and can make a difference, have a greater sense of community and self - esteem.

Within classes this week children have been completing activities focused on them thinking more in depth about their own feelings, listening skills and also thinking about personal values.

Accompanying the newsletter this week is a Parent help sheet with tips and hints on how to support your child when discussing Mental Health

Remember that the school Pastoral Leader is available for any family who has concerns. Contact Mrs Berry through the school office.

There is a video online for anyone who wants to know more about this years theme

## E-SAFETY: 4CS - COMMERCE

Digital commerce poses unique challenges for children in this day and age. Targeted ads, often based on sophisticated algorithms, can blur the lines between content and promotion, making it difficult for young users to discern genuine content. For example, how often can children identify when an 'influencer' is posting an ad?

Another concern is the possibility of making in-app purchases in games, where children may accidentally make costly decisions, not understanding the real-world implications. Children may also encounter "free" trials and online shopping that can mislead them. It's vital to use appropriate filtering and monitoring controls, as well as educating children about these commercial tactics to ensure their safe navigation of digital commerce.

#### Supporting your child about mental health

Talking about your own feelings can help children to identify and talk about their own. Sometime a hug is all children need to feel supported.

Playing with a pet can be beneficial, likewise playing football or other physical activities. Just listening to children about their worries can help, even if you can't provide the answers.
